

Serafín Martínez Jaramillo

INFORMACIÓN DE CONTACTO Centro de Estudios Latinoamericanos (January 2019 – present) office: +52 55 50616690
Asesor en Estabilidad Financiera mobile: +52 55 91111545
Durango 54, Col. Roma Norte, C. P. 06700, Ciudad de México, México. e-mail: smartinez@cemla.org

INTERESES DE INVESTIGACIÓN Riesgo Sistémico, contagio financiero, network economics, redes financieras, algoritmos genéticos, finanzas computacionales, economía basado en agentes, aprendizaje de computadoras y reconocimiento de patrones.

EDUCACIÓN *Doctor of Philosophy in Computational Finance, University of Essex, U. K.*
Master in Computer Science, University of Essex, U. K.
Actuaría, Universidad Nacional Autónoma de México, México

HONORES Y RECONOCIMIENTOS Consejo Nacional de Ciencia y Tecnología (CONACyT), Beca para estudios de postgrado, 2001-2006
Banco de México, Beca para estudios de postgrado, 2002-2003
Candidato a miembro del Sistema Nacional de Investigadores (SNI), 2009 - 2011
Miembro del SNI Nivel I, 2012 - 2014
Miembro del SNI Nivel I, 2015 - 2018
Miembro del SNI Nivel II, 2019 - 2022
Visiting Fellow, Universidad de Essex, Reino Unido, 2011-2013
Visiting Fellow, Universidad de Essex, Reino Unido, 2014-2016

PUBLICACIONES SELECCIONADAS

1. van der Leij, M., S. Martínez-Jaramillo & F. Lopez-Gallo (2019) “On Relations in the Unsecured and Secured Overnight Interbank Lending Markets,” work in progress.
2. Poledna, S., S. Martínez-Jaramillo, F. Caccioli & S. Thurner (2019) “Quantification of systemic risk from overlapping portfolios in the financial system,” *Journal of Financial Stability*, in press.
3. Martínez-Jaramillo S., C. Carmona & D. Kenett (2018) “Interconnectedness and Financial Stability,” *Journal of Risk Management for Financial Institutions*, in press.
4. de la Concha, A., S. Martínez-Jaramillo & C. Carmona (2018) “Multiplex Financial Networks: Revealing the Level of Interconnectedness in the Banking System,” *Complex Networks & Their Applications VI*, Springer International Publishing
5. Battiston, S. and S. Martínez-Jaramillo, (2018) “Financial networks and stress testing: Challenges and new research avenues for systemic risk analysis and financial stability implications”, *Journal of Financial Stability* Vol 35, pp 6-16
6. Anand, K., I. van Lelyveld, A. Banai, S. Friedrich, R. Garratt, G. Halaj, B. Howell, I. Hansen, S. Martínez-Jaramillo, H. Lee, J. L. Molina-Borboa, S. Nobili, S. Rajan, D. Salakhova, T. C. Silva, L. Silvestri, S. R. Stancato de Souza, (2017), “The missing links: A global study on uncovering financial network structure from partial data,” to appear at the *Journal of Financial Stability*.
7. Usi Lopez, M., S. Martínez-Jaramillo & F. Lopez-Gallo (2017), “The repo market in México: empirics and stylized facts,” to appear at *Neurocomputing*, special issue on *Machine Learning Applications in Finance*.

CONFERENCIAS,
SEMINARIOS Y
TALLERES
SELECCIONADOS

“On Relations in the Unsecured and Secured Overnight Interbank Lending Markets” World Congress of the Econometrics Society, 17 - 21 August 2015, Palais des Congress; Montreal Canada.

“The multiplex network nature of financial systemic risk and its implications” Seminar on Network Analysis and Financial Stability Issues, December 10 - 11, 2014, CEMLA, Mexico City.

“Liquidity Hoarding in the Interbank Market”, Conference on Collateral, Liquidity and Central Bank Operations, 10-11 September 2014. Bank of Canada, Ottawa, Canada.

“Calibrating limits for large interbank exposures from a system-wide perspective”, “Conference on Data Standards, Information and Financial Stability” 11-12 April 2014. Loughborough University, UK.

“Calibrating limits for large interbank exposures from a system-wide perspective”, “Financial Networks Workshop” 23 October 2013. Deutsche Bundesbank, Frankfurt, Germany.

“Financial contagion: extending the exposures network of the Mexican financial system”, *Networks: A new Understanding for Practical International Economics*, 21 May 2013. World Bank, Washington DC, US.

“Calibrating limits for large interbank exposures from a system-wide perspective”, 4th BIS Consultative Council for the Americas conference “Financial stability, macroprudential policy and exchange rates” 25-26 April 2013. Central Bank of Chile, Santiago, Chile.

“An Empirical Study of the Mexican Banking System’s Network and its Implications for Systemic Risk”, Workshop on supervising financial networks 13-14 February 2013. Deutsche Bundesbank, Frankfurt am Main (Eltville), Germany.

“Systemic risk measurement: Challenges and Opportunities”, CCFEA’s 10th Anniversary Workshop, 7 November 2012. University of Essex Colchester, UK.

“An Empirical Study of the Mexican Banking System’s Network and its Implications for Systemic Risk”, Latsis Symposium 12-14. September 2012. ETH Zurich, Switzerland

“Systemic Risk Analysis by means of Network Theory: An Empirical Study of the Mexican Banking System”, Financial Stability Internal Seminar, Bank of Canada , Canada 2012.

“Network Models For Systemic Risk Monitoring”, IMF Conference Operationalizing Systemic Risk Monitoring, Washington DC 2010.

“Systemic Risk, Financial Contagion And Stress Testing: Their Interaction And Measurement”, BIS Conference Systemic risk, bank behaviour and regulation over the business cycle, Buenos Aires 2010.

“SYRNET: A Network Model Of Systemic Risk”, 3rd Annual Risk Management Conference Systemic Risk, Singapore 2009.

“A Network Model Of Systemic Risk”, Federal Reserve of Chicago Meeting, Chicago USA 2008.

“A Network Simulation Model For Systemic Risk Evaluation”, Workshop for non-supervisory Central Banks, México 2008.

“Bankruptcy Prediction: A Comparison Of Some Statistical And Machine Learning Techniques”, 14th International Conference on Computing in Economics and Finance, Paris France 2008.

“Systemic Risk: Stress Testing The Banking System”, IMF Meeting on Stress Testing , Amsterdam Netherlands 2007.

“Financial Contagion: A Network Model For Estimating The Distribution Of Losses”, 13th International Conference on Computing in Economics and Finance, Montreal Canada 2007.

“Co-Evolution Of Genetic Programming Based Agents”, 12th International Conference on Computing in Economics and Finance, Limasol Cyprus 2006.

“The Red Queen Principle And The Emergence Of Efficiency In Financial Markets” 8th Workshop on Economics and Heterogeneous Interacting Agents, Kiel Germany 2003.

TAREAS
EDITORIALES

Co-editor de los libros:

- Martin Diehl, Biliana Alexandrova-Kabadjova, Richard Heuver & Serafín Martínez-Jaramillo (2015) “Analyzing the Economics of Financial Market Infrastructures”, IGI Global, 2015.
- Alexandrova-Kabadjova, B.; Martinez-Jaramillo, S.; Garcia-Almanza, A.L.; Tsang, E. (2012) “Simulation in Computational Finance and Economics: Tools and Emerging Applications”, IGI Global, 2012.

Editor invitado del special issue:

- “*Network models and stress testing for financial stability*” at the Journal of Financial Stability, 2019.
- “*Network models, stress testing and other tools for financial stability monitoring and macro-prudential policy design and implementation*” at the Journal of Financial Stability, 2016.

Revisor en varias conferencias internacionales incluyendo:

- International Conference on Intelligent Computing ICIC 2006 Kunming China.
- IEEE CEC 2010, 2008, 2006, 2005 and 2003. The IEEE Congress on Evolutionary Computation
- UKCI 2010, the 10th Annual Workshop on Computational Intelligence
- EvoFIN 2010, 2011 The European event on Evolutionary and Natural Computation in Finance and Economics
- IEEE Symposium on Computational Intelligence for Financial Engineering & Economics 2011 and 2012
- World Congress on Computational Intelligence 2016, Vancouver Canada.

Dictaminador en revistas internacionales:

- Applied Intelligence
- IEEE Transactions on Evolutionary Computation
- Journal of Economic Dynamics & Control
- Journal of Financial Stability
- Neural Computing and Applications
- International Journal of Modern Physics C
- Journal of Network Theory in Finance
- Journal of Banking and Finance

Miembro del commite Editorial de:

- Journal of Financial Stability
- Journal of Network Theory in Finance

Panelista en conferencias internacionales:

- Supervising Banks in Complex Financial Systems, Frankfurt 21-22 October 2013, Deutsche Bundesbank.
- Second Workshop on International Financial Markets, Ottawa 14th and 15th of June 2012, Banco de España and the Bank of Canada.
- Measuring Systemic Risk and Issues for Macroprudential Regulation, Bank of England 24 January - 25 January, 2011. Bank of England and London School of Economics.
- Second Annual Risk Management Conference: The Challenges of Risk Management in Volatile Financial Markets, Singapore 30 June - 2 July, 2008. Risk Management Institute and University of Singapore.

Co-organizador de las conferencias:

- Network models, stress testing and other tools for financial stability monitoring and macroprudential policy design and implementation Mexico City, 11-12 November, 2015, Organizers: Banco de México, University of Zurich, CEMLA and the Journal of Financial Stability.
- Seminar on Network Analysis and Financial Stability Issues, December 10 - 11, 2014, CEMLA, Mexico City.

EXPERIENCIA
PROFESIONAL

Universidad Nacional Autónoma de México (UNAM), Ciudad Universitaria, México

Profesor y Ayudante de profesor

Agosto 1995 – 1997

Profesor y ayudante de profesor de cursos de licenciatura en: introducción a la programación, programación avanzada, Análisis de Redes y Seminario de tópicos avanzados de investigación de operaciones.

Instituto de Investigaciones Eléctricas (IIE), Cuernavaca, México

Asistente de Investigación

1995 – 1996

Asistente de Investigación para el proyecto de medición del ahorro de energía debido al programa del horario de verano en México.

Universidad de Essex, Colchester, Essex, UK

Graduate Teaching Assistant

Octubre 2002 – 2006

Asistente de profesor para cursos de licenciatura y de postgrado en: introducción a bases de datos, bases de datos avanzadas, satisfacción de restricciones, aprendizaje de computadoras y redes neuronales.

Banco de México, Mexico

Analista de Sistemas Computación

Mayo 1997 – Octubre 2001

Computer systems analyst to select the tools for the institutional Datawarehouse and Datawarehouse developer for the Financial System Analysis General Directorate.

Licencia de estudios

Octubre 2001 – Septiembre 2006

Licencia de estudios para estudios de maestría y doctorado.

Investigador Financiero y Especialista Financiero

Octubre 2006 – presente

Investigador Financiero y actualmente Especialista Financiero en riesgo sistémico, contagio financiero, predicción de bancarrota y redes financieras.

Centro de Estudios Latinoamericanos (CEMLA), Mexico

Advisor

January 2019 – present

Senior reseacher and advisor to CEMLA on financial stability and financial markets infrastructures related topics.

LENGUAJES DE
PROGRAMACIÓN

C, C++, Matlab, Unix y Linux básico, $\text{L}^{\text{A}}\text{T}_{\text{E}}\text{X} 2_{\epsilon}$, Visual Basic, SQL, Java, Data Stage, Whitelight, Oracle para Datawarehousing.
